2. Enquiries & Order Fulfilment

Request handling, parts identification & delivery workflow.

3. Product Portfolio

Spare parts by category for trucks, buses & commercial vans.

4. Applications & Support Services

Vehicle systems coverage, supported brands, quality standards & customer support.

1. Company Profile

FalkePro at a Glance

FalkePro is a Germany-based spare parts supplier headquartered in Bremen. We support **distributors, workshops, and fleet operators** with reliable solutions for **trucks, buses, and commercial vans**. Our focus is simple: **fast and professional parts supply** — with dependable processes for both domestic and international customers.

Founded by **Cansu Şahin**, FalkePro combines hands-on industry knowledge with a clear commitment to performance. We stand for **direct communication, accurate parts identification, and smooth order handling** — ensuring the right part arrives when it's needed.

Our Key Strengths

- **OEM (genuine) parts** & high-quality aftermarket alternatives
- **Used parts available upon request**
- **Fast availability** and dependable sourcing
- Strong supplier network across **Europe, Türkiye & the Middle East**
- **Worldwide shipping** with flexible fulfilment options
- **Personal service** and quick response times

Our Mission

To deliver the right spare parts — **quickly, transparently, and reliably** — helping commercial vehicles return to operation with minimal downtime.

🌐 **Online:** FalkePro on YouTube & social media (updates, insights & contact)

FalkePro – Commercial Vehicle Spare Parts. Worldwide. Reliable. Personal.

2. Enquiries & Order Fulfilment

Fast and Efficient Solutions

At FalkePro, we keep the enquiry process simple so you can receive the right spare part as quickly as possible. You can contact us directly via **WhatsApp, phone, or Email** — and we respond fast and reliably.

How to Submit Your Enquiry

Send us the key details and we will check availability and get back to you with a suitable quotation.

For quick and accurate identification, the following information is especially helpful:

- **Part number / reference number** (if available)
- **Vehicle Identification Number (VIN)**
- **Photo of the removed/old part**

Quotation & Delivery

Once we have reviewed your request, you will receive a clear and transparent offer. Delivery can be arranged **domestically or internationally**, depending on your requirements — **securely packaged and professionally handled**.

3. Product Categories – Overview

This section provides an overview of our spare parts categories for **trucks, buses, and commercial vans**.

Please note: this catalog is designed as a **portfolio overview**. You can send enquiries at any time via **WhatsApp or Email**, and we will respond quickly with availability and pricing.

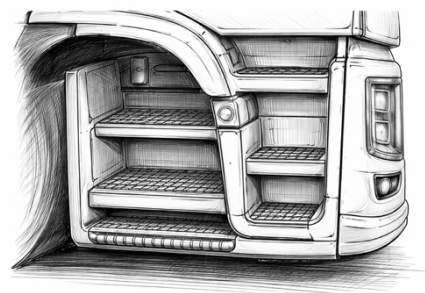

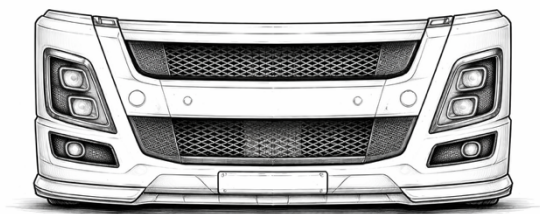

The product groups listed below represent our current supply range. Requests can be handled **independently of brand or model**, based on your vehicle and part requirements.

3.1 Chassis & Frame

Spare parts and components for the chassis and frame, including body-mounted fittings and access systems for **trucks, buses, and commercial vans**. Suitable for replacement, repair, and refurbishment following wear, impact damage, or heavy-duty daily operation.

Product Range (Examples)

- Front / rear bumpers
- Underrun protection / underbody guards
- Steps & access systems

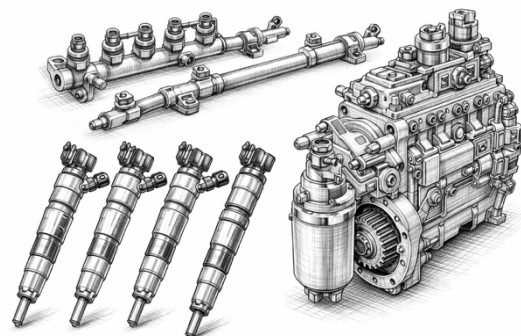

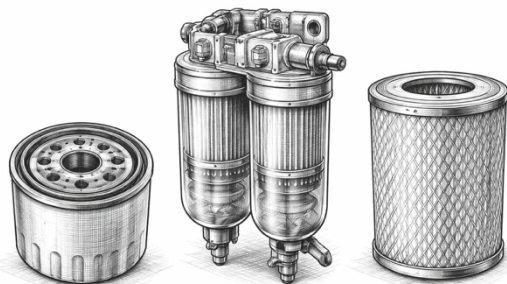

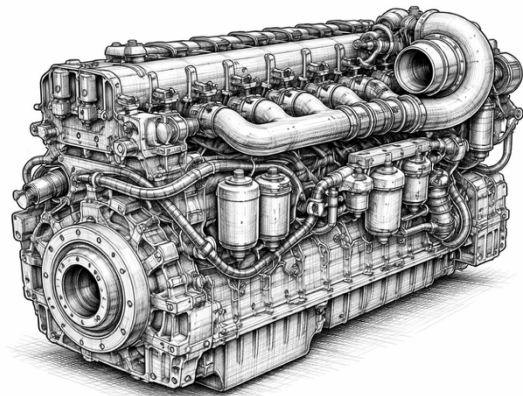

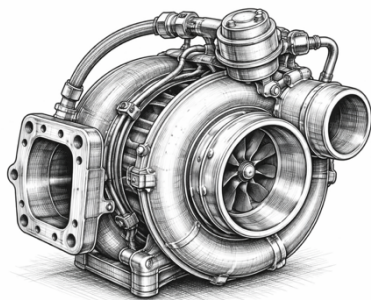

Enquiries: WhatsApp +49 163 7100272 | info@falkepro.de

3.2 Powertrain (Engine & Engine Components)

Spare parts for engines and engine-related systems — from core components to advanced systems such as turbocharging and exhaust aftertreatment. Designed to ensure reliable performance and reduce vehicle downtime in demanding commercial vehicle operations.

Product Range (Examples)

- Engine block / cylinder head
- Turbocharger / charge-air system (intercooler system)
- Fuel injection system (pump / injectors)
- EGR system (exhaust gas recirculation)
- Exhaust aftertreatment (DPF / SCR / AdBlue system)
- Cooling system (radiator / water pump / thermostat)
- Filters (oil / fuel / air)
- Engine control & sensors

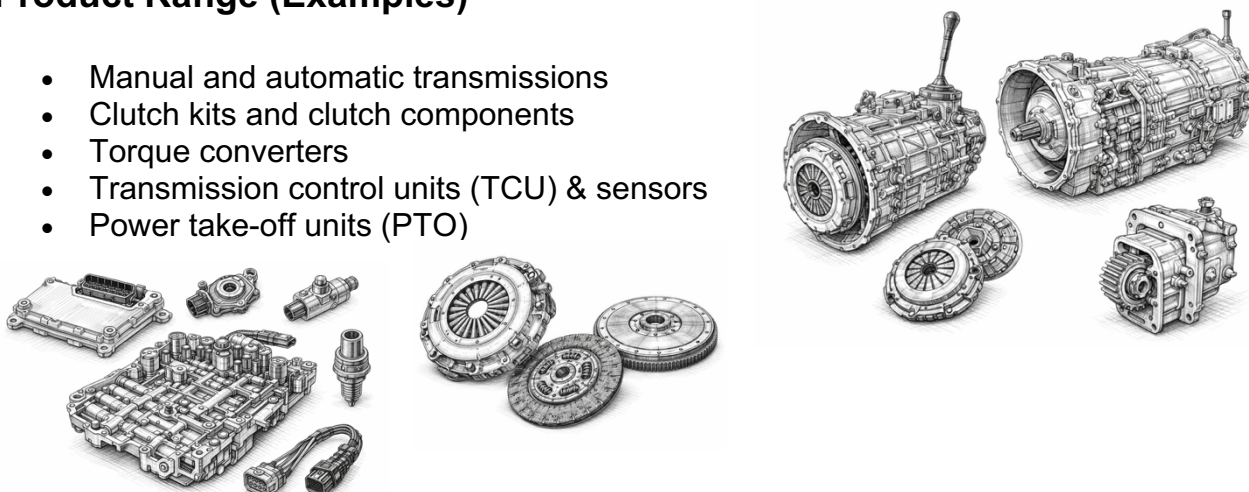

Enquiries: WhatsApp +49 163 7100272 | info@falkepro.de

3.3 Transmission / Clutch / Power Take-Off (PTO)

Spare parts and components for **manual and automatic transmissions**, as well as complete **clutch systems** — suitable for a wide range of commercial vehicle applications in freight transport and passenger service. We also support special requests and non-standard configurations upon enquiry.

Product Range (Examples)

- Manual and automatic transmissions
- Clutch kits and clutch components
- Torque converters
- Transmission control units (TCU) & sensors
- Power take-off units (PTO)

3.4 Propshaft & Final Drive

Components for power transmission from the gearbox to the drive axle — engineered for heavy-duty, day-to-day commercial vehicle operation. Ideal for replacement and overhaul in cases of wear, vibration, or mechanical damage.

Product Range (Examples)

- Propshafts / cardan shafts (driveshafts)
- Differential assemblies
- Axle housings
- Wheel hubs
- Wheel bearings

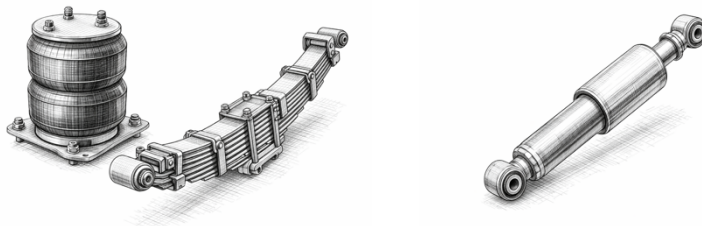

Enquiries: WhatsApp +49 163 7100272 | info@falkepro.de

3.5 Suspension (Axles, Springs & Level Control)

Suspension components for **stability, ride comfort, and reliable load handling** — particularly important for fleet operations and long-haul transport. We supply parts for **air suspension systems, axle suspension assemblies, and level control**.

Product Range (Examples)

- Front and rear axle components
- Suspension systems (air springs / leaf springs)
- Shock absorbers & suspension links (control arms / axle links)
- Level control & air supply (valves / air tanks / air lines)

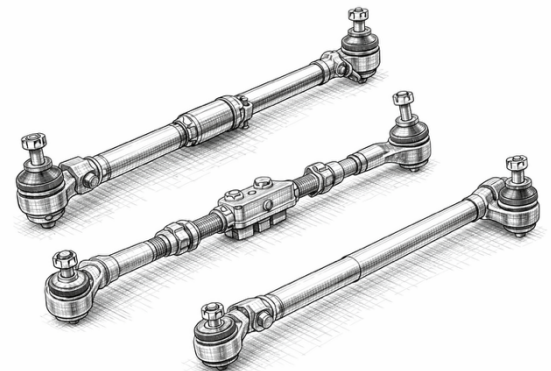

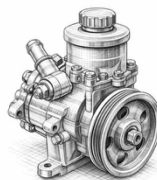

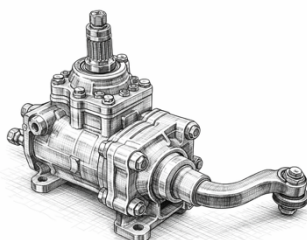

3.6 Steering

Steering components for precise handling and safe vehicle control — available for **mechanical, hydraulic, and electric steering systems**, depending on the vehicle. Ideal for repair and replacement in professional workshop and fleet maintenance operations.

Product Range (Examples)

- Steering gear (steering box)
- Track rods / tie rods & tie rod ends
- Power steering pump / steering assist units
- Hydraulic lines and hoses
- Steering column / intermediate shaft

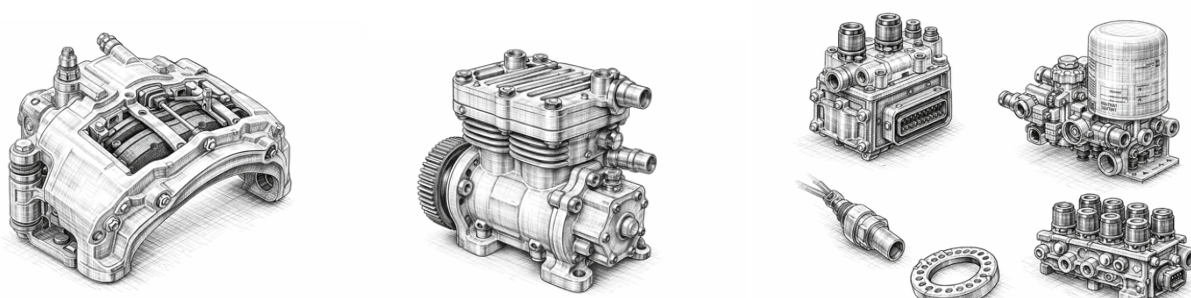

Enquiries: WhatsApp +49 163 7100272 | info@falkepro.de

3.7 Braking System (incl. Pneumatic / Air Brake System)

High-quality braking and air system components designed for maximum safety and reliability in daily commercial vehicle operation. We supply parts for **service braking**, **parking braking**, and **pneumatic brake control systems**.

Product Range (Examples)

- Brake calipers, brake discs/drums & brake pads/linings
- ABS / EBS components
- Air brake system components (compressor, air dryer, valves / pressure regulators)
- Spring brake chambers, air tanks & air lines

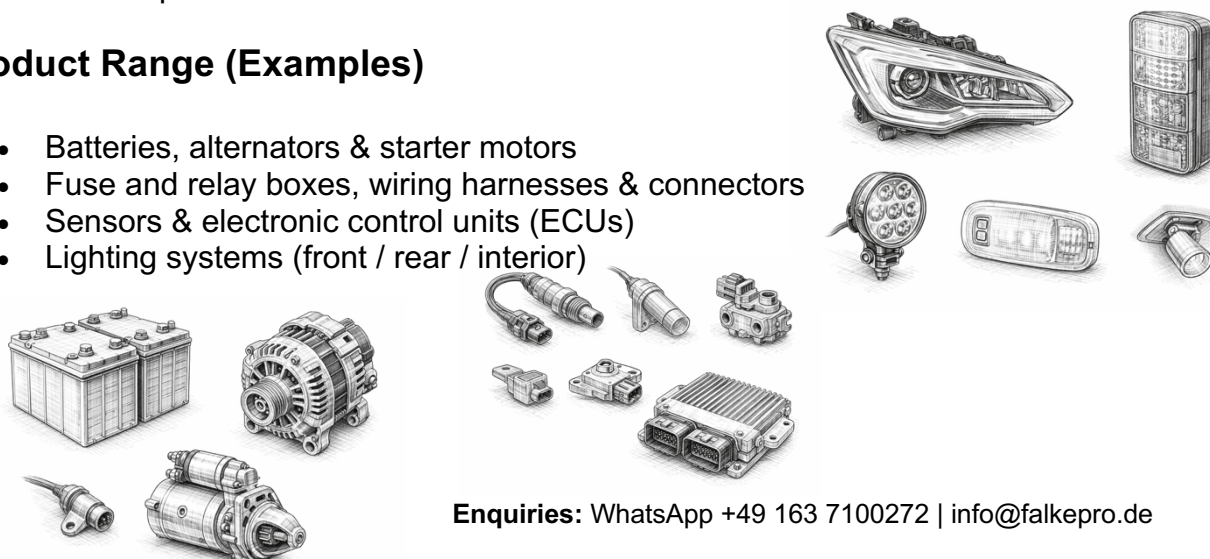

3.8 Electrical System / Sensors / Control Units

Electrical, sensor, and control components for starting, power supply, and key vehicle functions. Ideal for fast troubleshooting and replacement in workshop and fleet maintenance operations.

Product Range (Examples)

- Batteries, alternators & starter motors
- Fuse and relay boxes, wiring harnesses & connectors
- Sensors & electronic control units (ECUs)
- Lighting systems (front / rear / interior)

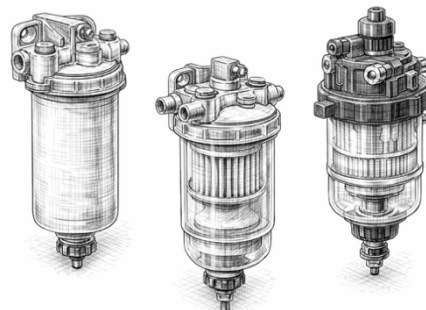

Enquiries: WhatsApp +49 163 7100272 | info@falkepro.de

3.9 Fuel System

Components for fuel supply and filtration — supporting consistent fuel delivery, reliable injection performance, and clean engine operation. Suitable for various fuel system designs depending on vehicle type and application.

Product Range (Examples)

- Fuel tanks, fuel lines & connections
- Fuel filters & fuel pumps
- Injection system components & return lines

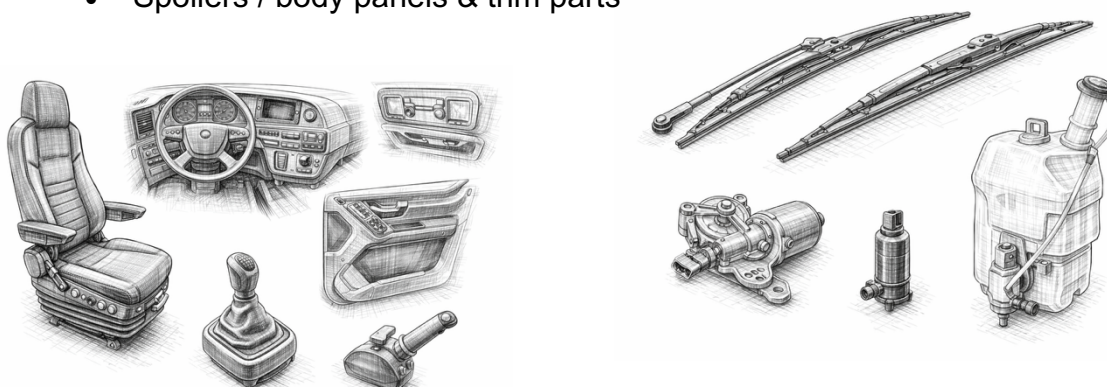

3.10 Cab / Body (Exterior & Interior)

Parts for the cab, exterior attachments, and interior components — suitable for functional repairs and visual restoration. Ideal for replacement after damage, wear, or as part of refurbishment and fleet maintenance.

Product Range (Examples)

- Doors / windows / seals
- Mirrors / camera systems
- Seats & interior components
- Dashboard / switches & control elements
- Safety components (depending on vehicle model)
- Wiper & washer systems
- Spoilers / body panels & trim parts

Enquiries: WhatsApp +49 163 7100272 | info@falkepro.de

3.11 Cooling & Air Conditioning

Cooling and A/C components engineered to maintain engine efficiency and driver comfort — designed for continuous commercial vehicle operation and changing temperature conditions. We supply parts for both the **engine cooling circuit** and the **air conditioning system**.

Product Range (Examples)

- Radiators & charge-air coolers (intercoolers)
- Water pumps, thermostats & cooling fans
- A/C compressors, condensers/evaporators & heat exchangers
- Sensors, switches & related components

Enquiries: WhatsApp +49 163 7100272 | info@falkepro.de

4. Applications & Services

Vehicle Coverage • Brands • Quality • Fulfilment

FalkePro supports B2B customers with professional spare parts supply for **trucks, buses, and commercial vans**. We deliver both **fast-moving standard components** and **hard-to-source parts**, tailored to the vehicle type and your operational requirements — with reliable communication and efficient processing.

Vehicle Coverage

- Trucks (Heavy Duty)
- Buses & Coaches
- Vans / Light Commercial Vehicles (LCV)

Brands & Part Identification

This catalog provides an overview of our product portfolio and does not include part numbers. To ensure accurate matching, parts are identified using the **VIN**, a **photo of the removed part**, or a **part/reference number** (if available).

Quality & Availability

We offer **OEM (genuine) parts** and carefully selected **aftermarket alternatives**. **Used parts** can also be supplied upon request.

Services & Support

- Express sourcing for urgent requirements
- Domestic and international shipping
- Support for special orders and non-standard parts
